The following error message is an example of the truncated error message:

" Executed as user CONTOSOServiceAccount. ...0.4035.00 for 64-bit Copyright (C) Microsoft Corp 1984-2011. All rights reserved. Started 63513 PM Error 2012-06-

What should you do?

- A. Configure output files.
- B. Configure event forwarding.
- C. Disable the Limit size of job history log feature.
- D. Expand agent logging to include information from all events.

Answer: A

Explanation:

Explanation/Reference:

When you have a multiple-step job, then log all steps against a single file. Check the 'Append output to existing file' checkbox for all steps in the job that execute after the initial step. This results in a log file with all of the job steps from the last job execution. Each time the first step executes (each time the job is kicked-off) the file will be overwritten, so we have a record of the last set of output.
